

TRANSCRIPTION

REVIEWING A TRANSCRIPT FROM CHORUS CALL IS A BREEZE!

Many companies offer transcription services, but few provide the level of accuracy that Chorus Call delivers on a routine basis.

Chorus Call enlists the services of carefully vetted professional Canadian-based transcriptionists with extensive experience in financial reporting. No voice recognition software is used.

Chorus Call transcriptions are typically provided as a Microsoft Word document with a clear consistent format and an attractive cover page reflecting your corporate branding. Transcripts can also be provided in your standard customized format upon request.

Chorus Call uses a fair formula to calculate transcript charges, based on how quickly the turnaround is required and the number of minutes of audio to be transcribed.

Premium extra fast service is available featuring four and six hour turnarounds. Standard turnaround times are one or two business days.

TRANSCRIPT FORMAT EXAMPLE:

Brookfield

OPERATOR:
Welcome to the Brookfield Asset Management 2016 First Quarter Results Conference Call. As a reminder, all participants are in listen-only mode and the conference is being recorded. After the presentation, there will be an opportunity to ask questions. To join the question queue, you may press star, then one on your telephone keypad. Should you need assistance during the conference call, you may signal an Operator by pressing star, and zero.

I would now like to turn the conference over to Mr. Andrew Willis, Senior Vice President of Communications. Please go ahead.

ANDREW WILLIS:
Thank you Operator, and good morning. Welcome to Brookfield's First Quarter Webcast and Conference Call. On the call today are Bruce Flatt, our Chief Executive Officer, and Brian Lawson, our Chief Financial Officer. Brian will start this morning discussing the highlights of our financial and operating results in Q1. Bruce will then talk about our market outlook and Brookfield's approach to investing. After our formal comments we will turn the call over to the Operator and take your questions.

In order to accommodate all of those who want to ask questions, we ask that you refrain from asking multiple questions at one time in order to provide an opportunity for others in the queue. We will be happy to respond to additional questions later in the call, as time permits.

At this time, I would remind you that in responding to questions and in talking about new initiatives and our financial and operating performance, we may make forward-looking statements. These statements are subject to known and unknown risks and future results may differ materially. For further information, I would encourage you to review our Annual Information Form and our Annual Report, both of which are available on our website.

Thank you, and I'll now turn the call over to Brian.

BRIAN LAWSON:
Thanks Andy. Good morning and thank you for joining us this morning. The year is off to a strong start led by significant growth in our Asset Management results as well as improvements across a number of our businesses, and our success in closing \$25 billion of capital for our most recent series of funds has us extremely well positioned for continued growth.
